

Wisconsin to Chicagoland  
It's time for a better commute

## Wisconsin to Illinois Commuting

A great way to save money and have a more productive commute to work is to share your drive with other commuters.

When you are carpooling from Wisconsin to Illinois, it makes sense to share the ride and save on fuel, auto maintenance, tolls and wear-n-tear on your vehicle.

Finding other commuters is simple!

- 1) To start or join a carpool: visit [RideshareEtc.org](http://RideshareEtc.org) and use the FREE matching service to quickly find carpoolers. First time users register their name, origin, destination, work hours and contact information and then search for commuter matches. You can also request a registration form by calling 800-455-POOL (7665). It's easy to use and you have nothing to lose!
- 2) Look at the existing Pace Vanpools on the following pages and test ride one free for three days!
- 3) If there isn't an existing vanpool that meets your needs, start your own at [PaceRideShare.com](http://PaceRideShare.com). Please note that either the origin or the destination of the trip must be in Northeastern Illinois.

## Pace Vanpool Program

If you have a group of 4 or more carpoolers, consider traveling in a Pace van instead of putting wear-n-tear on your own vehicle.

In the Pace Traditional Vanpool Program, Pace supplies the vehicle and covers all costs including:

- Fuel
- Tolls
- Insurance
- Maintenance
- Roadside assistance
- Van washes

Riders pay a low monthly fare based on distance and number of participants.

The primary driver rides for FREE and receives 300 personal miles per month.

Back-up drivers receive a discounted rate. Vans can have more than one backup driver.

It's easy to start! Just print and complete the [Pace Vanpool start-up forms](#) and mail them in.
